

Best Building • Build to Suit over 150,000 SF
Award of Excellence

Awarded to

Architecture, Incorporated

for

Kettler Capitals Iceplex

Judges' Comments:

- This entrant's excellence and visibility not only because - it is visible - through its soaring architecture.
- For what it not visible...its LEED certification.
- It is a creatively designed facility added to the urban community with very little land through the very innovative use of adding a world class facility to the top of an underused parking garage.
